NIGHT WORK ON SIR FRANCIS DRAKE BLVD

Dear Property Owner and/or Resident,

Coastside Concrete and Construction Inc. has replaced curb ramps at the intersection of San Francisco Boulevard and Sir Francis Drake Boulevard (SFD) (Project Number SRTSL05159 (020)). The contractor has also been asked to repave the eastbound lanes on SFD between the existing crosswalks at San Francisco Blvd, remove the existing curb cuts and crosswalks, stripe a new crosswalk and reprogram the intersection lighting.

We have carefully reviewed the project limits, and determined that it is necessary to perform the paving and striping portion of the work at night. Night work provides increased safety and efficiency for the contractor and the public. We understand that the night-time noise will be an inconvenience for you: the work on SFD will be loud, but we will do everything we can to minimize the duration of the noise.

The schedule* tentatively includes work hours of 8:30 p.m. to 6:00 a.m.:

May 15th Grinding and paving the eastbound half of the intersection.
May 16th Removing and replacing traffic striping

**The schedule is subject to change, and you will be notified of schedule changes by letter.*

We thank you for your patience while we complete all work as quickly and safely as possible.

Please don't hesitate to contact me any time if you have any questions or concerns.
