Design Process

SAN ANSELMO MEDIAN MASTER PLAN

SAN ANSELMO, CALIFORNIA

Design Process

Master Planning

- Define potential projects
- Gather Public and Stakeholder input
- Estimate project costs
- Finalize Master Plan and clearly defined projects

Funding

- Strategize and pursue funding sources for the defined projects
- Private and Public (SWRP, other state, federal, local grants) funding options
- Analyze and assess maintenance funding

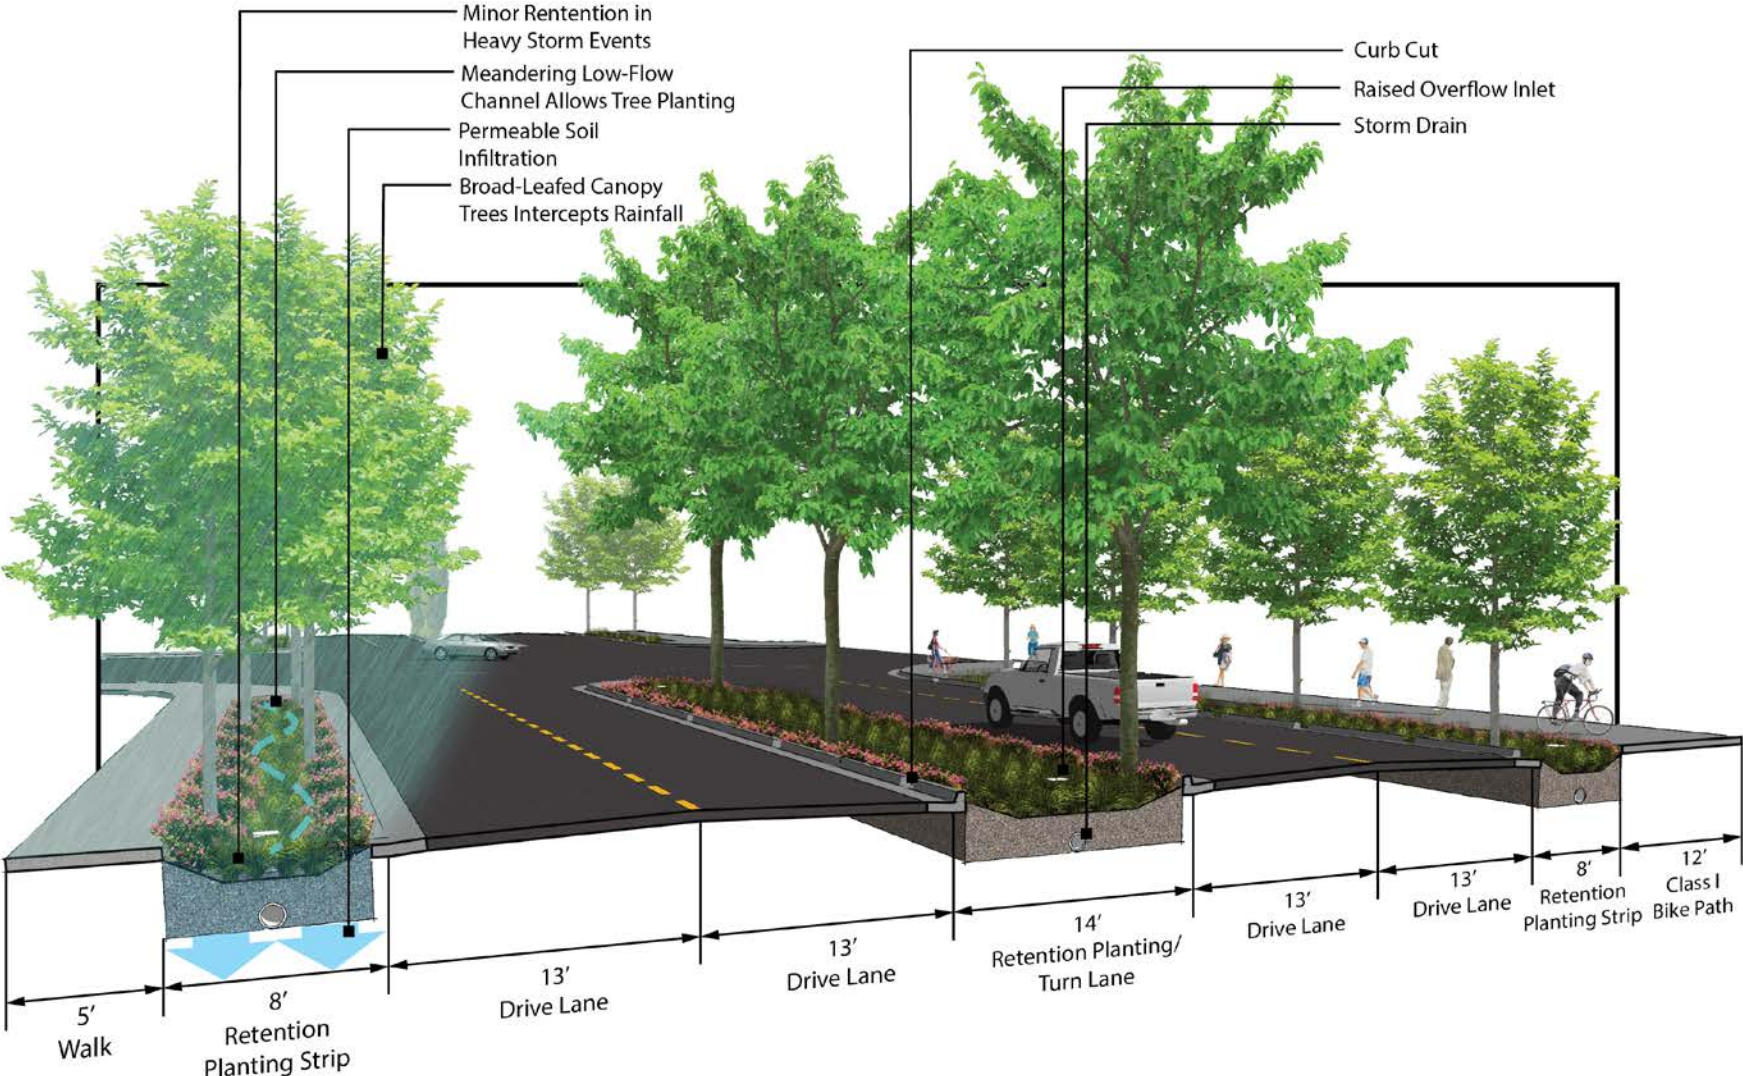

Design

- Award project to design team
- Gather Additional Public and Stakeholder input
- Design project improvements and evaluate likely project costs in current bidding climate
- Finalize design within funding budget

Construction and Maintenance

- Bid project improvements
- Award project to a contractor
- Construct project improvements
- Short and Long term Maintenance
