ACKNOWLEDGEMENT OF UNDERGROUNDING UTILITIES REQUIREMENT

I, _____, the property owner of _____
(owner name) (project address)
acknowledge that the cumulative work at my property, permit number: _____, triggers
the Town's requirement to underground utilities. My project is within the CBC's definition of a
substantial improvement: Any repair, reconstruction, rehabilitation, alteration, addition, or other
improvement of a building or structure, the cost of which equals or exceeds 50 percent of the
market value of the structure before the improvement or repair is started.

As such the Town's Municipal Code 9-4.01 Underground utilities requires buildings or structures
that undergo a substantial improvement as defined by the CBC to place all electrical and
communication service laterals including those for cable television service underground from the
main service equipment. See SAMC 9-4.01 for all requirements.

I, _____, the property owner, will submit a \$50,000
(owner name)
performance bond for all of the undergrounding work. When undergrounding work is:

1. Complete, and
2. Inspected by the Town, and
3. Considered finalled by the Town, and
4. The refund request form has been filled out, emailed to permits@townofsananselmo.org,
and approved by the Public Works Department,

the undergrounding performance bond will be released. In lieu of a of a performance bond,
a bond in the amount of \$50,000 may be paid directly to the Town of San Anselmo instead.
