

Program Highlights

Reducing Carbon Emissions

- Whole House Efficiency
- Transportation Choices
- Waste and Water Reduction

Building Community

Emergency Preparedness

- Disaster Supplies
- Evacuation Plans
- CERT Information

Fostering the Local Economy

- Local Products and Food
- Green Purchasing Decisions

Be Part of the Climate Solution!

The program offers practical actions to lighten your carbon footprint, reduce your bills, and make your family, neighborhood, and community more resilient.

Teams attend 5 facilitated meetings and take actions between the meetings.

220 Marin households have participated so far, reducing 2.6 million pounds of carbon emissions.

Join a Resilient Neighborhoods team with your neighbors, friends, coworkers, or meet some great new people!

It's Fun, It's Free, and It's Rewarding!
