Phase II: The FY 15/16 Magnolia Paving Project

Dear Property Owner/Resident,

Thank you very much for your patience during the Ross Valley Sanitary District (RVSD) infrastructure improvements. Having the patience and understanding of the neighborhood was much appreciated by all of us. All of the letters and kind words of appreciation for the contractor were forwarded to both D&D Pipelines (D&D) and RVSD.

The next phase of construction is paving which the Town has contracted D&D Pipelines to perform. D&D's subcontractor for this work is MCK Services. Funding for the FY 15/16 Magnolia Paving Project is from the Measure D sales tax fund and from paving credits collected from RVSD and PG&E during recent utility projects within the limits of the project.

ROAD CLOSURE: On Thursday June 23rd and Friday June 24th, Magnolia Avenue (Library Place to Tamalpais) and Cedar Street (Tunstead to Tamaplais) will be **CLOSED** and **INACCESSIBLE** from 8:00 AM – 5:00 PM. Full access will be restored after 5:00 p.m. daily.

- Please do not attempt to park or drive on the road for any reason during the paving preparation and cooling period. If you have an urgent concern, please contact Rachel Calvert 925-395-3578. If you have an **emergency, call 911**: emergency vehicles will have access at all times
- Please do not attempt to walk in the vicinity of the grinder, trucks or heavy equipment. Cross walks and segments of the road without sidewalk will be closed to pedestrians during construction
-  The asphalt will be extremely hot, so please protect your children and your pets by keeping them off of the hot asphalt.

Thank you for your continued patience and understanding. We will try to minimize the inconvenience to you; however, to accomplish this work, restricted access to your home and construction will be present throughout the day.

Contractor contact information: Gary O'Keeffe of D&D Pipelines @ 415-404-8265

Sincerely,
Rachel Calvert
